MAY, JUNE, JULY 1996 - ISSUE 2

For 25 Years - The Premier Magazine for Amateur Repeater Owners & Users in The SouthEast

The Voice of the SouthEastern Repeater Assn., Inc.
Published 4 Times A Year in Feb., May, Aug., Nov.

Page 1 - Editorially Speaking . . !

This 'n' That . . .

You're on the editorial page! We've done a little more changing on the Journal format. All SERA officials are now listed together on one page, hopefully making it easier to find who you want to contact. In the same process, we are trying to tighten up on space, get all the news in here, but cut down on overall page count.

As you know, if you've been with us a few years, the Repeater Journal is subsidized by membership dues. Each year, a budget is proposed to the Board, and we try to live within that budget, yet get a presentable magazine you will enjoy.

Lately, with the dramatic cost of paper rising, which makes the printers have to charge more, our "deficit" with the Journal has risen.

Our belt tightening is to keep us out of trouble in the future. We're healthy now, but we need to look ahead. That's the reason the Journal is a little slimmer. Less pages, costs less. Costs under control prevents dues increases in the future. Understand, we will never cut out newsworthy events just to save money. Our goal continues to provide for you the most up-to-date, concise magazine of its kind in the nation.

* * * * *

Good news for those of you who have asked so many times, "where's a Florida and Alabama repeater index." We have permission to print the Florida index in this issue. We will also be printing the Alabama index in this issue and a new updated version in the May issue.

* * * * *

Speaking of indexes, by now you should have a copy of our 1996 SERA Data & Source Directory. It was the culmination of several years of thinking about it, wanting to do it, but not quite having the tools or funds in place to try it. Well, for 1996 we did it. It was the most "jam-packed" 52 pages I have ever put together since I have been in this business. Consider, 14-states of updated repeater listings, over 4,500; 300 club listings, 200 VE exam listings, 185 Hamfest listings, 250 net listings, band plans, and other informative items.

As for 1997. We're not sure. If we can recoup part of the expense we could probably convince the Board to let us try again.

We overprinted 2,000 copies above the

INVOICING AD INSERTION ORDERS

DEALERS: With a volunteer staff we do not send out and receive advertising contracts and notices. Quarterly dealer invoices, after insertion, will request information pertaining to future insertions. If no instructions on the paid returned invoice copy are received, the ad will be repeated and invoiced the upcoming quarter.

HAMFEST: advertising must be ordered each edition for insertion. Payment must accompany insertion order/ advertising copy for Hamfest ads.

ADVERTISING PAYMENT POLICY

Advertising invoices are due upon receipt. Unpaid invoices will require us to withhold any additional ads in until account is paid in full. All Hamfest advertising and Business Card Advertising must be paid in advance of insertion.

SPECIFICATIONS & GENERAL

Sizes listed Above are width by length in that order. Ads received that do not fit dimensions will be adjusted to the nearest ad size and be billed $8.00 production fee. The ad will be billed at the size rate it had to be adjusted to.

Prices quoted are for exact size, camera-ready positive photoprint, pasteup or Laser print ad copy.

Full color ads for covers require negatives, right-reading emulsion down, sized for full 8-1/2x11 bleed. 150-Line screens preferred. Color Match Proof, Color Key or Pre-printed tearsheet should accompany negatives.

Design, typesetting, layout or pasteup is available at a nominal charge.

The Repeater Journal cannot be held liable or responsible for errors in advertising, or to the quality or accuracy of advertising claims.

When possible, advertisers requiring typesetting or composition by the Repeater Journal staff will receive a proof with time for telephone corrections. No proofs are available for ads with typesetting submitted after deadline, due to staff and time limitations.

ADVERTISING DEADLINES

All advertising copy and insertion orders should be sent to the Repeater Journal Advertising Manager:

Sharon Ward
P. O. Box 215,
Tobaccoville, N.C. 27050.
Phone (910) 983-0879 Fax (910) 983-4012

Ad copy deadlines are the 1st of the month, prior to month of publication. New ad insertion order deadline is 10 days prior to copy deadline.

The Repeater Journal cannot guarantee publication of any advertising that arrives after deadline unless prior arrangements are made with the Repeater Jouurnal Editor or Sales Manager.

AD & COPY DEADLINE DATES

FEBRUARY ISSUE - January 1,
MAY ISSUE - April 1,
AUGUST ISSUE - July 1, (NEXT ISSUE!!)
NOVEMBER ISSUE - October 1.

About the SERA Repeater Journal Magazine

The *Repeater Journal*, voice of SERA is published quarterly, the first Friday of the months of February, May, August and November of each year and mailed free to members of SouthEastern Repeater Association, Inc., an eight state repeater coordinating organization made up of repeater owners and users. Permission is granted for use of material other than repeater indexes contained in the *Repeater Journal* (See important note this page) provided proper credit is given. The *Repeater Journal* Editor will swap newsletters with other Repeater Organizations, News organizations and clubs upon written request. DEADLINES: Ad space reservations are the 20th of the month, and ad copy due the 1st of the next month, one month prior to publication. News deadlines are the first of the month prior to publication month. The *Repeater Journal* is entered as Third Class Mail at the Post Office in Greensboro, NC. The *Repeater Journal* newsstand cover price is $3.00 and is available from numerous retail Amateur Dealers in the southeast. All news and newsletter exchanges should be mailed to the Editor: Wayne C. Williams, K4MOB, 600 Lakedale Road, Colfax, NC 27235, Phone (910) 993-5881, or E-Mail k4mob@vnet.net.

About the SouthEastern Repeater Association, Inc.

SERA, SouthEastern Repeater Association, Inc. is the largest, most well known, non-profit Repeater Coordinating Organization in the United States. SERA territory covers over 2,130 repeaters available to over 86,000 Amateurs covering 329,000 square miles from the Southeastern member States of North Carolina, South Carolina, Virginia, Tennessee, West Virginia, Kentucky, Georgia and Mississippi. SERA celebrates its 25th anniversary in 1996 with a continuing goal - to serve the repeater owners and users of the Southeast by providing a voice of communications, information and education with the publication of the *Repeater Journal*, and the guidance of our State (Director) Coordinators, officers and volunteers. Support, comments and recommendations are appreciated.

About SERA Associate Membership (Repeater Users)

Amateurs, especially repeater users, are invited to join SERA as Associate Members. Only $8.00 per year will enable Amateurs to support the organization and receive the Repeater Journal. Associate Membership deadlines are the 15th of the month preceding months of publications - (Jan. 15, April 15, July 15, and October 15). Persons joining or renewing their memberships must have their application into the Tobaccoville Post Office Box by those deadlines to receive the next upcoming Repeater Journal, published the first Friday of February, May, August and November. Memberships received after deadline will not receive next to-be-published Repeater Journal, but instead will receive the forthcoming issue the following quarter. HOT-P Associate Memberships (Repeater Journals mailed 1st Class rate) are limited to one year memberships at $14.25 per year. Regular membership Repeater Journals are mailed 3rd Class Bulk Mail. SERA does not issue receipts for Membership applications, nor are Repeater Journals forwarded to new addresses. If you move, we must be notified. Members should wait until next Repeater Journal comes out to report any problems. Write SERA Associate Membership, P.O. Box 215, Tobaccoville, NC, 27050-0215 for further information. Associate Members may hold appointive offices and positions within the SouthEastern Repeater Association, Inc.

About SERA Full Repeater Membership (Repeater Owners)

Officers and Directors are elected from Repeater representatives who are SERA Full Members. Any repeater owner or club may join SERA as a Full Member if they have an operable repeater on the air. Full Membership application, coordination information (if not on file) and $20.00 should be submitted for the annual Full Membership fee. Two Full Members, named and listed on the application by the owner, receive the Repeater Journal from each application. The Full Member repeater is also appropriately recognized as a SERA supporter in the repeater index with an asterisk (*) code. All Full Memberships expire on December 31 of each year. Write SERA Membership, P.O. Box 215, Tobaccoville, NC 27050-0215 for further information.

NOTE: The *SERA Repeater Journal* is Copyright 1996 by The SouthEastern Repeater Association, Inc. Original stories, text and charts may be reproduced or re-printed by any organization without prior consent, provided credit is given. The SERA Repeater Index may be published or reproduced in any form by any publication or electronic means to be distributed without charge. Appropriate credit must be given to the *SERA Repeater Journal*. Reproduction or publication of the SERA Repeater Index in any form, mechanically or electronically for a charge is prohibited without prior written consent of SERA, Inc. All other rights reserved.

Next day licenses! They're here!

-By William V. White, KS4AO
Co-chairman, TEARC/VEC

It's hard to imagine Amateur radio licenses available for use the day after a VE licensing exam, but that's just what is happening at a number of test sites throughout the country! With Electronic Filing of examination results and the change in FCC regulations permitting the use of an amateur license "when granted by the FCC" rather than "when received and signed by the applicant," new hams can be on the air as soon as the day after the exam.

Electronic Filing is the Secret

Here's how it works. We will use a TEARC/VEC test session in Kernersville as an example. The session is held on Saturday morning. Applicants who achieve a new license or upgrade are issued a CSCE [Certificate of Successful Completion of Exam] and the information for the entire test session is forwarded to the VEC [Volunteer Examiner Coordinator] by the VE [Volunteer Examiner] team.

In the case of TEARC/VEC and a Kernersville session, the information is delivered to the VEC, test results are checked and applicant information verified, and data for transmission to the FCC is prepared. Saturday evening, the data is filed electronically with the FCC, where computers consolidate data filed by all VECs for that day, process the data very late Saturday night, grant the licenses, and update the amateur database available on the Internet.

Late the same night or the next morning, applicants or volunteer examiners may access the FCC database to obtain the new call sign and the license is "available for use" by the applicant.

Since it is important to get information to a newly licensed amateur as quickly as possible, those applicants with access to the Internet via computer can access the data directly or receive an E-mail from the VEC (E-mail address: tearcvec@aol.com.) Applicants without a computer or Internet access generally receive a call-from a member of the VE team with their new call sign.

That's a far cry from the weeks of waiting by a mailbox for a new or upgraded license. As recently as 1994, some amateurs reported waits of 15 weeks for upgrades and new licenses were running 10-12 weeks on a routine basis.

This dramatic increase in service to the amateur radio community was made possible by the FCC's new computer system, along with a cooperative effort of the FCC and VECs to develop streamlined procedures for the electronic filing of examination information.

The VEC system developed in the 1980s when the FCC transferred the responsibility of amateur license testing to the amateur radio community. FCC regulations provided for licensing examinations to be given to applicants by a team of at least three accredited volunteer examiners.

Volunteer Examiner Coordinators were established, each operating under an agreement with the FCC, to oversee and coordinate the efforts and activities of Volunteer Examiners in preparing and administering examinations for amateur operator licenses. There are currently 15 VECs in existence and no additional VECs have been permit-

From the President of

SERA

The goal of all the volunteers of SERA is to do the best job we can for you, the repeater owners and repeater users in our territory. We are all like you, wanting what is best for our hobby. We want SERA to do the job right. We believe in quality, whether it is in service or in merely getting the latest information to you through our Repeater Journal.

Although we try very hard, sometimes things don't go quite right, either through lack of communications, or sometimes even a personality conflict and someone gets upset. I invite you to contact me if you have any complaints on the way SERA is doing its job. If you feel you need to talk to someone, please give me a call - I'll listen!

DAVE SHIPLETT, AC4MU

Want to join a VEC Team?

Our two SERA area based VECs are always looking for volunteers to join their team of VEs. Each would like to broaden their coverage of amateur examination points. It you would be interested and qualify, contact members of the VEC you are interest in. We have conveniently listed them below.

TEARC

If you are interested in becoming a volunteer examiner for TEARC and hold an extra, advanced or general class license, please contact one of the following:

Rae Everhart, K4SWN, Co-Chairman, Telephone: (704) 249-8734, E-mail: RAEF@InfoAve.net., MCI: 204-7355.

Jim Williamson, NQ4T, Chief Officer at 3504 Stonehurst Place, High Point, NC 27265-2106, Telephone: (910) 841-7576, E-mail: nq4t@aol.com. or nq4t@InfoAve.net. MCI: 730-8819.

Bill White, KS4AO, Co-Chairman, Telephone: (910) 722-5858, E-mail: ks4ao@aol.com. MCI: 206-9153.

WCARS

If you would like to become a VE or join a VE team for the Western Carolina ARS/VEC Inc. Contact one of the following:

Win Guin, W2GLJ, 2138 Sonning Drive, Germantown, TN 38138. Phone (901) 754-4552. MCI: 588-1543.

Ray Adams, N4BAQ, 5833 Clinton Hwy., Suite 203, Knoxville, TN 37912. Phone (423) 688-7771. MCI: 390-4185.

Norman Harrill, N4NH, 7 Skylyn Court, Asheville, NC 28806. Phone: (704) 253-1192. MCI: 686-1137.

John Chism, ND4N, 139 Mustang Circle, Simpsonville, SC 29681. Phone: (803) 967-0001. MCI: 725-6732.

For internet E-Mail addresses for any of the WCARS names, merely enter the 7 digit MCI number listed above, (no spaces or dashes), followed by @mcimail.com

HAM CALL SIGN INFO

If you are waiting for your new call-sign, personel at the following numbers have capabilities of reading from the FCC database, and give your new call-sign when issued.

FCC (800) 322-1117 (9 AM - 5 PM EDT)
ARRL/VEC (860) 594-0300 (9 AM - 5 PM EDT))
W5YI/VEC (817) 860-3800 (9 AM - 5 PM CDT)
WCARS/VEC (423) 966-4881 (9 AM - MIDNITE - EDT - 7 days a week)

Another source of finding out your new callsign is one of many on the internet. Try www.qrz.com, then go into the daily FCC report. They claim this source is updated directly from the FCC database. Licensee names are listed alphabetically by last name.

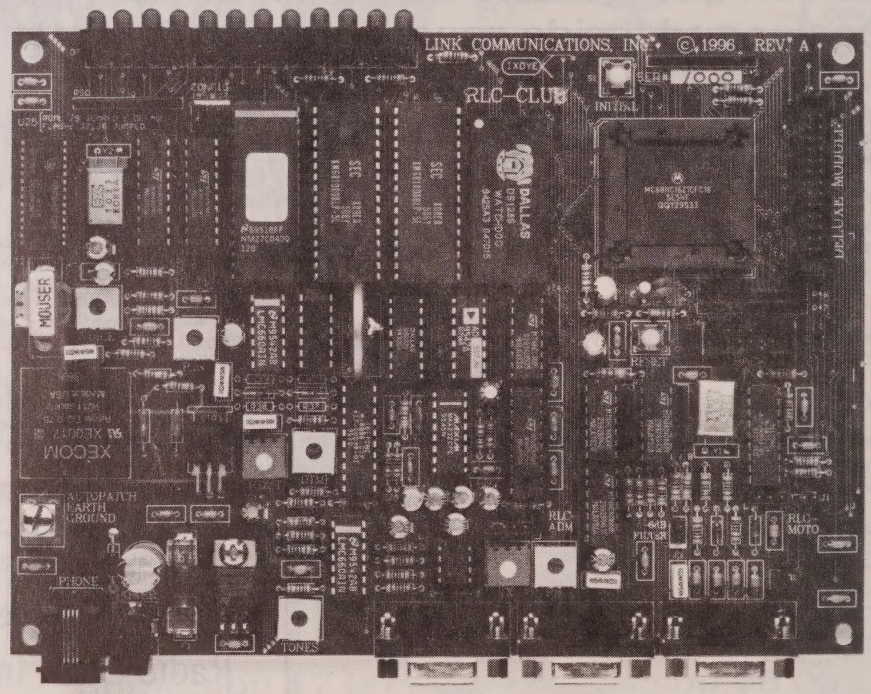
INTRODUCING

RLC-CLUB DUAL PORT REPEATER CONTROLLER

Announcing the new RLC-Club. This new exciting controller combines the power of expandability, the ease of set-up possibilities with the included Windows™ programming software, the power of the multiple repeater control and the price to meet any individual or club's budget.



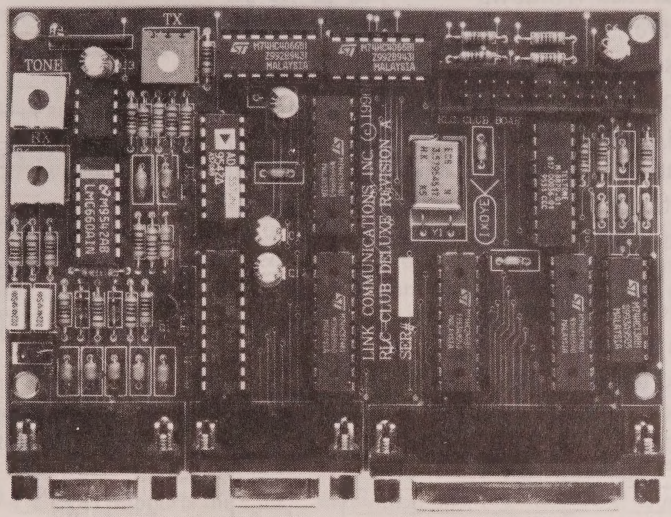
RLC-CLUB

Only the RLC-CLUB controller system gives you Windows™ programming software that allows timers, messages, users and most functions to be set-up with the ease of a computer; very powerful autopatch features, and multiple repeater control at such a low price! And with the addition of the RLC-Deluxe module an additional radio port, increased output controls and support for our large voice mail based Digital Voice Recorder is provided.

- Full-duplex radio port for repeater, link or remote base applications
- Built-in autopatch with a 500 number autodialer, 500 call sign slots, 500 number long distance dialing table
- TI voice synthesizer with 685 word male, female and sound effects library
- Internal basic Digital Voice Recorder allows custom recorded voice messages

(See specification sheet for additional features)

See why the RLC-CLUB knocks the competition's socks off!



RLC-Deluxe

The RLC-Deluxe module is a path for upgrading your repeater system. With the addition of this module, the 'Club' can be upgraded from a single port voice based repeater to a dual port system. The 'Deluxe' module's radio port can operate separately from the CLUB's radio port with its own ID's, courtesy beeps, timers and DTMF control. The 'Deluxe' option also adds 8 output control lines and support for the RLC-DVR1, voice mail Digital Voice Recorder system.

- Additional full-duplex radio port for repeater, link or remote base applications
- 8 output control lines used for user applications and some remote base interfaces
- Icom,Kenwood,Yaesu HF remote bases supported and can be added to your repeater with the 'Deluxe' module
- RLC-DVR1 Digital Voice Recorder system support

The RLC-DVR1 is a powerful digital voice recorder system that provides high quality 64 kbit/sec voice recording. This unit provides 250 general message slots, 500 private mail slots (Used in conjunction with the 500 user system on the 'Club'), and 10 public mail box slots. The interface requires user provided DRAM in 30 pin SIMM configuration and provides 131 seconds per/Meg of memory. Minimum memory needed is 2 Meg and maximum memory supported is 16 Meg. Cost for the RLC-DVR1 is $400.00 with cabinet enclosure.

Price:

RLC-CLUB Controller **$500.00** • RLC-Deluxe Module **$175.00** • 19" Rack Enclosure **$ 50.00** • s/h/i extra

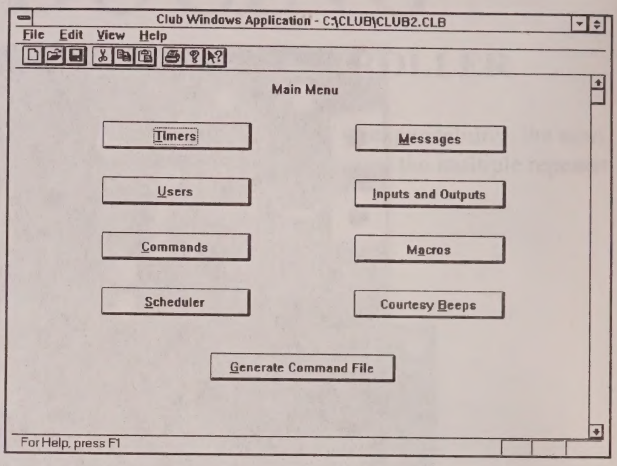
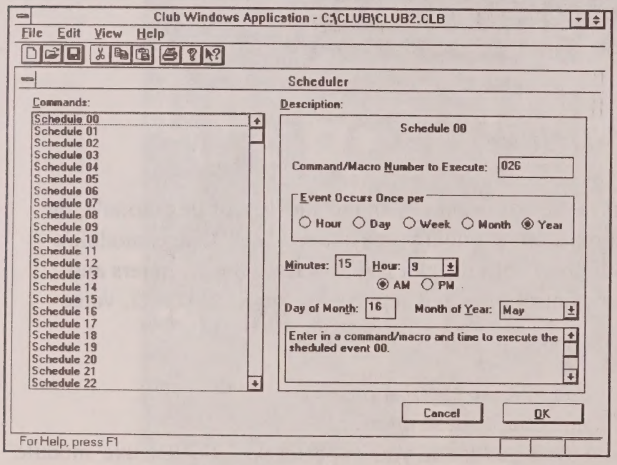
Prices subject to change without notice

RLC-CLUB'S WINDOWS™ PROGRAMMING SOFTWARE

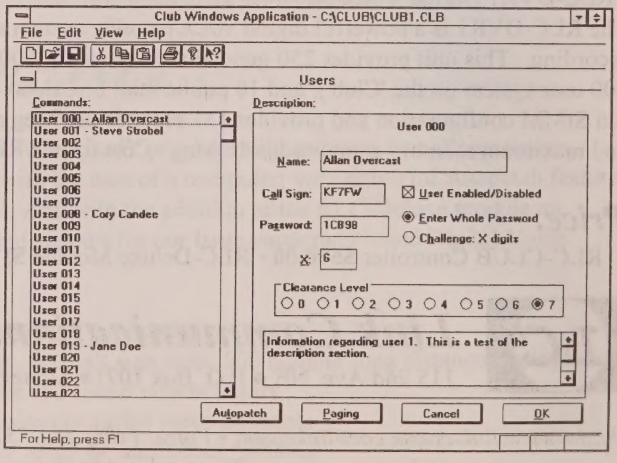
The RLC-CLUB includes Windows™ programming software. This software allows the users to set up the vast number of features on the controller. Once the CLUB'S software is running, you have several areas you can choose from for setting or changing the set up for your repeater system. Once changes are made you can and upload the changes to the controller or save the changes on your disk drive. You can have multiple configurations stored for each of your separate controllers.





The RLC-CLUB supports a complete scheduler package allowing for time control of events on the 'CLUB'. A menu option allows for setting up the scheduler in its hourly, daily, weekly, monthly and yearly formats. With use of the software, the user can easily set up when events occur and what the events do when they do occur.
The 'CLUB' also supports message programming using the spoken words of the voice/cw library. This allows users ease in setting up the message structure of the 'CLUB'

The 'CLUB' offers the repeater owner controlled access to the system. With a 500 user structure, the 'CLUB' can control who functions the repeater and what level each user can operate under. Each user has their own callsign, memory dial number, password, access level and paging information. The owners can enable or disable users at a click of the mouse button to control each user's access.



INCLUDED AT NO COST!!

RLC-CLUB TECHNICAL SPECIFICATIONS

Ports

- 1 - Full duplex port used for repeater, link or remote base radio
- 1 - Additional full duplex port for an second repeater, link or remote base radio (Requires the RLC-Club Deluxe Interface)

Autopatch

- Built-in autopatch with DTMF regeneration, forward and reverse programming functions
- 500 number autodial memory, 500 callsign slots, 500 number long distance dialing table
- FCC Part 68 approved with 3-way voltage surge protection and line current detection

Inputs and Outputs

- 4 - Analog inputs for reading of voltage, temperature and any analog functions
- Analog inputs can be calibrated, alarmed, voice message formatted and high/low monitored
- Analog inputs can be used for contact closure detection for site alarm monitoring
- 8 - Output lines available with the RLC-Club Deluxe Interface

Remote Bases

- Doug Hall RBI-1
  - The 'CLUB' supports the Doug Hall RBI-1 Kenwood remote base system. This system allows the user to remotely change frequency, power, offset and PL of Kenwood radios
- RLC-ICM
  - The 'CLUB' supports the Link Communications, Inc. RLC-ICM Icom 900/901 band module remote base control system. This allows the user to remotely change frequency, offset and PL (using the Communications Specialist TS-64 of up to 4 Icom 900/901 band modules.
- Icom / Kenwood / Yaesu HF
  - The 'CLUB' supports remote frequency control for most Icom, Kenwood and Yaesu HF radios with serial inputs.

Serial Port

- RS-232 serial port with user selectable baud rates of 300 - 19200 baud

Windows™ Support

- Complete Windows™ programming software included for graphical computer programming of the 'CLUB' features. This program allows set-up of the system timers, users, messages, macros, autopatch numbers, tones, inputs and outputs, commands, scheduler and much more.
- Serial terminal support allows users to upload from disk current controller configurations

Program Features

- Voice synthesizer based on the TI TSP53C30 processor with 685 words
- Single or dual tone generation for courtesy beeps, CW and any tone response
- 100 timed event scheduler slots with real time clock and voice readback of time/date
- 500 multi-command macros allow you to make customized commands
- Built-in front panel LED display panel shows COR, PL, DTMF and PTT for all ports
- Built-in basic Digital Voice Recorder for recording ID's, announcements and messages
- Support for the RLC-DVR1 complete voice mail based Digital Voice Recorder System
- Optional Digital Audio Delay modules for each radio port
- Optional Squelch modules for discriminator derived COR signal
- Optional 19" Rack mount enclosure

DC Parameters

- Operating voltage of 11V-15V with a current draw of 155mA@12V
- Microprocessor: Motorola MC68HC16Z1 with 256K SRAM variable storage
- FCC Part 68 telephone interconnect, FCC Part 15 class A noise acceptance
- DTMF decoder: Teletone M-8870. Tone DAC generators: Analog Devices AD558JN
- Separate DB-09 connectors for the radio ports, serial and I/O signals

21st Annual Western Carolina Hamfest

TALK-IN - 146.91 W4MOE and 146.76 WA4BVW Repeaters

Willi is always there to help

A Voice from the one-nine machine

-by Kearney Smith, AE4IO

The Mt. Mitchell (NC) 145.19 repeater owned and maintained by Ken and Irene Woodard (WA4BVW and N4DWU) has become legendary for its wide coverage over western North Carolina and several neighboring States. Also familiar to users of that repeater are several colorful operators.

One of the best known has to be Nelda "Willi" Williams, KA4WPM, who lives with her husband Maurice, KB4YWN, in West Asheville near the intersections of I-40, I-24, and I-26, a strategic location for keeping an eye on interstate traffic in all kinds of weather.

At some time in any typical day, Willi can be heard giving help in her own inimitable way to anybody needing it. That help may take the form of suggesting an alternate route to a traveler, offering to make a phone call for a stranded motorist, or consoling someone who has lost a relative or suffered some other hardship. Nor is she slow to give advice to the operator whose technique or etiquette needs some polishing.

Her memory for call signs and names is phenomenal. In fact, Willi seems to have millions of bits of information of all kinds available upon demand. That kind of knowledge and ability comes in handy when quick and accurate information is needed.

As with most repeater activity, much of the traffic on 145.19 is routine, but still important in the convenience it provides: directions to truckers looking for points of delivery; best routes for tourists to uncommon destinations; detours around wrecks and highway construction. It's communication in the best tradition of Ham radio.

The value of Willi's work is acknowledged informally on the "one-nine machine" by fellow amateur radio operators. At other times her help in life-threatening emergencies has been officially recognized. One such occasion in 1992 involved helping an elderly hiker in the Shining Rock Wilderness between Brevard and the Parkway. Along with Boyd Brasington, KD4CJD, and Ray Ertzberger, KC4YKP, Willi received a letter of commendation from the Western Carolina amateur Radio Society (WCARS). The commendation says in part that these three:

> *Used their communications skills to assist a mountain trail hiker who needed help after becoming exhausted during a hike. The hiker was in a remote area not easily accessible by motorized equipment and a number of communications and instructions had to be relayed to several persons who came to the aid of the hiker.*

The hiker, a senior citizen with a heart condition, had taken a wrong turn and was separated from his party of hikers when Boyd and Ray came upon him. Both fellows, hiking enthusiasts themselves, were no-code technicians; they had wanted Ham licenses in order to have the security of hand-held transceivers on the trails.

In an operation that took most of the day, Willi coordinated communications. Boyd with his handy-talky stayed with the hiker, while Ray went back to the parking lot where he could direct the Haywood County Rescue Squad to the remote site.

As many others have done, Willi came to Ham radio by way of CB. For years, she had been passing along information to motorists using the Citizens Band before she got her first Amateur Radio license in 1981. Her experience since then includes serving RACES as Radio Officer from Buncombe County from 1985 through 1993. In 1989 she was named *"Ham of the Year"* by the Western Carolina ARS. And in 1994 Willi received the ARRL *Certificate of Merit* "in recognition of your outstanding service to the Amateur Radio Community."

She has upgraded a couple of times since getting her first license, but VHF remains Willi's favorite range of the spectrum. To the users of the Mt. Mitchell machine, she has become noted for the ""Willi-nics"" which she initiated several years ago as another way of getting together with what she sometimes calls her "Very Happy Friends." Twice a year on a regular basis her radio acquaintances come to Lake Julian south of Asheville and share their special recipes (or something they picked up at Hardee's) in a covered-dish lunch. And between times "impromptu" picnics are announced and held on short notice. And who is invited? anybody who hasn't had a better offer somewhere else.

The Blizzard of 1993

The Blizzard of 1993 brought traffic to a standstill in Western North Carolina and provided another opportunity for Amateur radio to prove its worth.

The snow started Friday, March 14th, and by Saturday evening the wind had piled deep drifts, making highway travel almost impossible. Willi slept little once the storm began seriously hampering traffic along the interstates. At first she and other hams, through the Skywarn net, had passed on information about the storm. Then they turned their attention to people already out in the storm, reporting to motorists what roads were passable and discovering which travelers needed help.

Soon miles-long strings of tractor trailers sat immobile on the interstates because they could not use access ramps which were in worst condition than the interstates themselves. The truck drivers typically had food and fuel aboard which allowed them to live in their rigs for a time.

Taking turns with other amateur operators as net control during the storm, Willi spent the better part of four days by her radios. She kept in touch with many of the truck drivers by CB radio, made phone calls for them to their employers and spouses, and learned which ones had special problems like needing medicines. Other Hams using four-wheel-drive vehicles

Summer Time means hamfests, cookouts, contests, fox hunts!

Journal Cover Story

-by Wayne C. Williams, K4MOB
Editor, The Repeater Journal

I'm not as active in Amateur radio and clubs and such like I used to be.

I am writing this story to encourage some new ham couples to consider joining in a weekend of contesting with the local club. Or joining in the annual outing and picnic, or participate in the local hamfest, the walkathon communications or whatever activity your area club might be sponsoring.

It is an experience you will never forget. You'll meet many new friends, and you will learn more about the hams and wives you talk to everyday, and meet with at the club meetings. Fellow club members actually become family if you let them.

I can remember years ago, weekend treks for contests that would be killers. Where we got the energy to make it through I'll never know.

One of the more noteworthy ones was a trip from Greensboro, NC to North Mountain near Winchester, VA, back then over 6 hours of driving. We all left Friday afternoon, drove up there, getting at the base of the mountain just before dark, whereupon it started to rain. By the time we reached halfway, if was a frog strangler. As we neared the top, we couldn't even see out the windshield.

I've never been so scared in my life. We had to make a hard right turn onto a tiny narrow road just as we topped a hill on a tiny narrow road. The car was in first gear, and Butch Lockhart, K4IGB in the car ahead of me knew the way. On the 2M radio he said he would tell me when to turn. I couldn't see a thing, but trusting him, when he yelled "turn", I turned, and fortunately, he called it right and we didn't tumble hundreds of feet down the wet mountainside.

Sleep was not to be. We had to unload tents, get the campers from the lower site to the upper site, get the food and stoves out and fix a meal.

We were cold, wet, hungry and exhausted, but we finally got everything ready so setup for the contest the next morning would be easy.

To make a long story short. We got up Saturday morning, set up everything and contested through the whole weekend, night and day. Sunday afternoon, we packed it all up and made the 6 hour drive back to Greensboro.

And to top it off, we all had to get up Monday morning and go to work.

But we had fun!! I still remember every detail, everyone who went, and the funny stories we told. But we went up to contest, and that's what we did.

I can remember another group who worked two weeks filling up a tractor trailer with equipment, tents, pipe, antennas, food and everything we would need to support about 20 people on a trek to the top of Beech Mountain in North Carolina. All for a VHF contest weekend.

We drove up, set up and worked through the weekend. We came home exhausted but happy.

And yes, we all went to work Monday morning.

Fox hunts were not so demanding as a weekend contest trip, but they can be demanding, but equally as fun. We have had them run from 9:00 AM until about 5:00 PM before anyone found the hidden transmitter. (We had some real sly foxes in those days!)

I guess the highlights of all these outings is the food. I know it normally is just picnic food, but when you have worked hard, become exhausted, then fall down on a cot and scoff down a meal someone prepared, it is considered "royal" dining at it's best.

Fellowship is another great thing my wife and I found to be strong at these meets. When you go into the wilderness with several other couples, live, eat and bunk together in cramped quarters, and are all working on a common goal, you learn much and become much closer friends with each of them.

Like I said, I'm not very active at the moment, but the fond memories linger on, years later. Someday soon, I'll start visiting some of the clubs where all my old ham friends are.

We'll probably talk about all those fun time we had on those long trips and harsh weekends.

After all, isn't fun and friends what we all cherish and seek out of life!

You have a chance to really enjoy Ham radio at its fullest right now! Grab it while you can.

ON THE MAY COVER

SPECIAL NOTE:

There is something unusual about this picture used on our cover. The first person to contact the editor and identify what it is - will receive a FREE SERA Data Book, and a year's FREE Associate Membership in SERA.

" TIDEWATER RADIO COVENTION'S INC. "

SERA 2000 COMMITTEE UPDATE

-by Stu Sims, N4MXC, Committee Member, and SERA Georgia Director

The SERA 2000 committee met in Tobaccoville, NC at the residence of David Ward, KA4LVO, SERA Database Manager on May 4, 1996 to initiate plans of how to better support repeater owners, trustees, and users into the 21st Century.

The committee's charter, which was approved by the SERA Board last year, is to look at how we accomplish coordination and data management and determine if and what we need to do better. SERA currently maintains one of, if not the most, extensive central repeater database and record systems in the country but we still find we are extremely dependant on the paper trail.

Our database system has developed over the years as an information source with customized modules or routines to support our administrative roles and needs.

The SERA system routines are, as a general rule, designed to manage our membership, general information, and Repeater Journal distribution needs . . and the system does excellent job. While the district directors use the information in the database to manage repeaters the data system currently is not designed to actually accomplish coordination actions. The information needed for coordination must be extracted and placed into various coordination programs or routines to actually be used for coordination actions.

This and the "paper trail" creates a situation of a time lag between the coordination action and availability of the data for subsequent coordination actions .. which when considering our crowded spectrum makes accurate coordination difficult. It also makes synchronizing the databases of the between all the district coordinators and the master database a physical nightmare.

Currently the coordination process involves everything from physically using maps, rulers, calipers, map overlays, repeater listings, and "snail-mail" between coordinator's to various computer programs to determine repeater separation and frequency pair availability. In some cases, sophisticated radio frequency path analysis and coverage area software is needed and used if available to the coordinator. Some coordination actions take a combination of all these methods.

Simply put, it is a labor intensive process. When provided inaccurate data like incorrect geographical coordinates by repeater owners or trustees, it sometimes ends up being done more than once.

At the recommendation of the SERA 2000 committee the SERA Board of Directors has approved the purchase of software to do sophisticated radio frequency path analysis and coverage area projections to assist with the mechanics of the coordination process.

The SERA 2000 committee hopes to reduce the time lag between data updates and improve the synchronization of the databases without an increase in the labor process and while also reducing the number data entry points.

Also in the committee's charter is to determine what software platform best suits the coordinator's needs, the data needed for coordination and problem resolution, the appropriate interface between current and future data management systems, the least labor intensive but most timely means of data entry and availability to coordinators, and how to painlessly transition into any new system. The committee's challenge is not to "rebuild the watch" just fine tune it with a minimum of labor and expenditure of resources.

The result should be better service from SERA well into the 21st Century.

More on this meeting and the results in future issues of the Repeater Journal.

membership needs. If we sell them, over half of our total expense will be recovered, which we can live with. I might mention, extra copies are available for clubs, individuals or anyone desiring. See the ad on page 20.

After publishing all the clubs, nets, VE exams and stuff in the Data book, which was designed for you to keep and refer to thoughout 1996, we will not be needing to repeat them in upcoming issues of the Repeater Journal. This will also be a good cost saving measure.

News Correspondents Wanted!

State News Correspondents are the lifeblood of the Repeater Journal. We are fortunate to have several who do a great job of reporting from their area.

Unfortunately, we have several areas where there are none. Our Virginia Vice-Director, Don Williams, WA4K makes a plea (see separate story) for someone to come forward and provde coverage for Virginia. Don is concerned like I am that some states are not getting coverage that they should. Virginia is one of them. In addition, Tennessee, Kentucky, Mississippi, Georgia, and statewide South Carolina should have designated Journal correspondents who provide local/state coverage every issue.

Its not a hard job. One only has to compile news items as he travels about, attends club meetings, hamfests, and get on mailing lists of club newsletters. That person then compiles all the information he receives and sends it to the me each quarter in time to put it in the Journal. If you are good at gathering, but weak on writing, no problem, we'll help. That's what an editor is for.

We have numerous stories and features coming from individuals. They are very important to the Journal too, but continuous coverage of state actvities is of utmost importance. People names, club names, repeater names and their stories are what we're looking for

If you are a writer, and enjoy writing, consider taking on the job for your state. It has the reward of seeing people enjoy your writings, compliment you on your coverage and assist you when you call. I'm always pleased when our Journal correspondents share with me a letter they have received from a reader.

We in the writing industry thrive on results of our work. Why do you think I have spent 20 years doing this book. It certainly isn't the pay!!!!!

Seriously, we want dedicated people who will always be there, always meet the deadline and always have something for every issue. No "trial for an issue or two," or "needed some quality time with the family and missed deadline" persons need apply.

Interested? Contact me or your State Director or Vice-Director. We'll tell you what's expected, get you started, and tell you how it works.

SOUTH CAROLINA

"Low Country" News

- by Ed Frank, KC4OOZ

I at first thought I would miss this issue of the Repeater Journal, because I was in the Hospital. They wouldn't give me my computer up in my room. Everything is doing fine after surgery. I will try to stay healthy or at least schedule my illness so it will not effect the Low Country News, if I can figure out how.

I would like to thank the Charleston ARS club and the other hams for their visits, cards and best wishes.

* * * * *

The 23rd annual Charleston Hamfest was held on Feb. 10 at the Stall High School in North Charleston. A lot of work went into it and it was worth it, as everyone had a great time. A hamfest is like a box of chocolates. You never know what you are going to get until you try. We are already looking forward to the 1997 hamfest. See you there!

The ARRL VEC test session was a success. There were 30 candidates checked in to test. We gave about 70 exams. There were 13 VEs that participated in the session. Congratulations to the new Hams who passed their exams for new licenses.

Now that Winter is past and weather is arming up things are starting to happen here in Lowcountry. The CARS club is getting the Club room fixed up on the U.S.S. Yorktown. It is used for special event stations and on Field Day. The women are insisting that we put up curtains and make a kitchen for them too. Hi Hi. They put in as much time on Field Day as the men do, both as operators and supporting the other ops with refreshments.

The CARS Club wants it to be a real show place for Hams all over the World, to be able to visit and for the public to view. It will be a good advertisement for Ham radio as well. The 146.790 repeater is on the Yorktown. The highest antenna on the ship is the repeater antenna.

The hams in South Carolina took part in a state-wide simulated earthquake Disaster Drill on March 23rd. The State ARES Director Gerald Hensley K8AFP directed the operation from 80M. The various counties checked in and organized the local 2M and 440 nets to cover the local Hospitals and Airports. It was a very good drill. Gerald said, "The exercise went faster than he expected and was handled very professional."

The drill took about 3 hours. I think a lot was learned by everyone.

Mary Favaro, AE4BX, Charleston County EC has a story about the Red Cross emergency drill, published elsewhere in this issue.

Well folks, that is about all from the Low Country of South Carolina. 73, see you next quarter. Send news and newsletters to me at 614 Longstreet Cir., Summerville, SC 29483.

We Were Wrong!

In the last issue of the Repeater Journal, we incorrectly identified Gary Hendricksen, W3DTN, author of the story about Repeaters and Auxiliary Stations. Gary is still very active with T-MARC and presently holds the position of Vice-President and Public Relations. We apologize for the error.

FCC approves Olympic Call signs for Georgia hams

-from ARRL Letter

Hams operating within the state of Georgia will be able to use special call signs from April 15th until August 31, to commemorate the 1996 Olympics. The approval came as a Special Temporary Authority (STA) issued by the FCC.

Licensed Amateurs in Georgia operating with a "4" in his call sign may replace that number with "96", representing the year, or "26" commemorating the 26th Olympiad.

Hams with "4" or any other numbers in their call signs, operating within the state of Georgia may add "00" to the existing number to mark the centennial year of the Olympic Games.

For instance: AC4MU in Georgia can use: AC96MU, AC26MU or AC400MU. Licensed hams with other numbers in their call signs, such as KB0Y can use KB000Y. Likewise N5DWU can use that call or N500DWU if he prefers.

The Olympics start in July.

SERA Summer Meeting

The SERA Board of Directors will hold their regular Summer meeting at the La Quinta Inn in Knoxville on June 29 and 30.

Announcing the new 1996 SERA

Data & Source Directory

The SERA Data & Source Directory is a new publication, produced by the Repeater Journal staff. It is chock full of valuable information any Amateur working VHF or UHF wants to keep. The 5-1/2 x 8-1/2 booklet contains 56 pages & color covers with a cover price of $3.00. Order the Data Directory today for yourself, friends or club members.

If you work VHF/UHF

YOU NEED the DATA Directory!

Some features of the Data Directory ....

- Repeater Indexes for the SERA 8-States
- Plus indexes for other states (see list at right)
- VHF/UHF Frequency band plans
- 8-state club meeting calendar - 300 clubs
- 8-state repeater net register - 200 nets
- 10-state VE Exam schedules 200 schedules
- The SE 1996 Hamfest Calendar 180+ schedules
- The History of SERA
- Items of interest about VE, ARRL, phone numbers
- SERA officers and directors listing
- 8-State Amateur & repeater census
- Southeastern Dealer listings
- And much, much more!

SERA DATA BOOK - P.O. BOX 215, DEPT. R - TOBACCOVILLE, NC 27050

The 1996 Data & Source Directory is published by SERA - SouthEastern Repeater Assn., Inc. - a non-profit repeater coordinating organization for VA, NC, SC, WV, KY, TN, GA, MS.

THE SERA OFFICIAL REPEATER INDEX

FOR: NORTH CAROLINA, TENNESSEE, VIRGINIA, WEST VIRGINIA KENTUCKY, SOUTH CAROLINA, GEORGIA, AND MISSISSIPPI

Copyright SERA 1996. The SERA ***Repeater Journal*** is Copyrighted 1996 by the SouthEastern Repeater Association, Inc., the official Coordinating Council for Virginia, North Carolina, South Carolina, Kentucky, West Virginia, Tennessee, Georgia and Mississippi.

The SERA Repeater Index may be published or reproduced in any form by any publication or electronic means to be distributed without charge. Appropriate credit must be given to the SERA Repeater Journal.

Reproduction or publication of the SERA Repeater Index in any form, mechanically or electronically for a charge is prohibited without prior written consent of SERA, Inc. All other rights reserved.

SERA will not be responsible for incorrect or ommitted listings. The responsibility of correct listings of those of the actual repeater owner or sponsor. We make every effort to keep the index as accurate as possible with information provided. The SERA Repeater lists contain certain repeaters which are NOT coordinated or not operating according to recognized frequency utilization plans.

SERA does not necessarily condone, or recognize such repeaters as being legal or illegal. They are listed in our indexes primarily to keep our readers informed of all repeaters known in the areas served by SERA.

Some repeaters allow voice as well as other functions on their machine. Generally the second function is indicated, but it does not necessarily mean the machine is solely operated in that mode. Operators may check with owners for information. Repeaters with normal input/output (pairs) are listed in the regular FM repeater index and their opertion of Packet is indicated with "K". For tone-accessed repeaters, the codes column contains the tone or access code only for those repeaters which the owner or trustee has given us written permission to publish.

Entries with "#" in front of city indicates repeaters added to this index that have not been coordinated through the local SERA state coordinator. Please work with your coordinator to get this indicator removed. Repeater frequencies which have been coordinated but may not yet be on the air are listed with "PROPOSED" showing in the codes column.

Repeater owners are reminded to contact their local Frequency coordinator (Director) for assistance in coordination, changes in their listings, or any other requirements.

North Carolina News - by Gene Fegely K3EJG

115 Randomwood Lane, New Bern, NC 28562 E-Mail: gfegely@coastalnet.com

The deluge of club newsletters reaching my desk has become enormous! It really shows how many computers and copying machines are owned by the amateurs in North Carolina.. Keep it up, and especially send copies to interested non-hams in your communities.

Local editors of small weeklies and shoppers are interested in some of the information that has been exclusive to your club members. You may be surprised how many will either run some of your writings, or call to get more information. Drop off some extra copies at local radio shacks, electronics service stores, and even the electronics departments of department stores. The clerks may be interested, and could be good contacts.

Wilson ARA

Surviving the winter months was a feature of the Oscillator, from the Wilson ARC. A scanned photo of the emergency trailer, and an invitation to contact Wilson County EC Bill Downes, KE4TZO, as well as a Skywarn plug were featured.

Howard Klino, K2IMO, is the president, Tom Simpson, N4UCO, vice-president, and Horace Meacomes, Sr., the secretary/treasurer for the 1996 season.. However, one great error I noted was the editor failed to ID himself! Past President Tim Brown, KB4RXZ, announced a World Wide Web site at: www.sit.ecu.edu/itecdept/courses/desn5500/exhibit.htm.

As to Web Sites, Dave Hockaday, WB4IUY, has inaugurated an online edition of the Franklin County ARA newsletter, and also has much information in his web site at: http://RTPnet.intercenter.net/~fcarc/ for those who have internet capabilities.

Charlotte Antique Radios

Ron Lawrence, KC4YOY, from the Union County ARC's Transmission Line, featured information on an antique radio collectors display at the Charlotte Hamfest, and also mentioned the same group was at the Sheraton in Charlotte in March. I supose you could contact him to get information ablout maybe having the group come to one of your club meetings with a program and display?

The club also had quite a good article on their repeater upgrades and proposals from John Knight, KF4NJ, which includes a change to CTCSS encode tone. John was quick to explain it was not to make the 145.39 private, but to cut down on the interference.

The SCARS newsletter announces their six meter repeater working well. They plan to move it to 300 feet to cover the southeastern section of the state during this summer. Unfortunately, the same article reports intermittent problems during freezing weather on the 149.79 machine. Bill Lambert, AK4H, took it home for a while to try to solve the problem. (I wondered if he worked on it in the freezer?)

WCARS also ice-bitten

The SmokeTest (clever name for a newsletter) issue of the Western Carolina ARS, mentioned the February meeting being hit by an ice storm, which also caused problems with their repeater, reports Editor Carol Anne Henderson, KE4JOJ. The group then decided to buy a new repeater, and also to change the meeting place of the club.

Just in case these two changes were to keep some members from finding them, I'll tell all... they are meeting on the first Thursday, 7:30 PM in the Laurel Auditorium of the Asheville-Buncombe Tech College in Asheville. President Tommy Queen, K4BNP, will welcome you, I am sure.

The New Bern ARC also meets on that same Thursday, in the eastern part of the state, at the Berne Restaurant, eports Ken Coffey, N3NOD. They also are planning to have a Field Day setup this year, with Kevin Beck, KF4DUU; David Works, KE4LNU; and Charles Bremmer, KD4OFT, in charge.

More Newsletters

Walt Bastow, N4KVF, continues to publish the Nag-Rag of the NC Alligators Group, which sponsors the Firecracker Hamfest in Salisbury every year on the first Saturdayin July. He and his XYL have plans to celebrate their fiftieth wedding anniversary this year, and will miss the hamfest. Congratulations, htere aren't many couples who make it that far in these days (we're about eight years away, ourselves)

The Greensboro ARA Feed Line featured a biography of a new member, Beatrice Eld, K4JYQ, who will be 85 years old in June. She and her husband used to communicate in morse code, and she still manages to copy. Recently she got a code tape from an old ham friend in Tennessee, report Madeline Bradley, KD4SVJ.

The Club also received accolades from Marilyn Braunn, Guilford County Emergency Management Coordinator, for their help in the ice storm in early February. The newsletter comtained a play-by-play narrative of the activities, which was quite interesting and certainly showed the extent of their efforts.

Capital Area reports

Two clubs from the Raleigh area, Cary ARC, and the Raleigh ARS, alway present fine newsletters. Tom Klimala, KM4LB, editor of the GARA Feed Line, had an interesting article on the 'junk' that is available in the many warehouse sales in the Raleigh area. Gary Pearce, KN4AQ reviewed Packet in the Triangle area, both adding much to my mental database about my adopted state.

Cyndi Wood, KD4ACW, RARS president, explained the demise of an issue of their Exciter was due to the ice storm, and the postmaster has no idea what happened to the mail. The group also lost out on the promised van for emergency services. The tale of Kelly Andrews, KD4EWG, adrift on Lake Crabtree, with a broken electic trolling motor, and his dramatic rescue was another feature by Gary, KN4AQ which was worth reading.

RARS awarded a Special Life Membership to Jesse Hodges, W4JG, for his services over the years. (A photo of an event such as this might be good to send to me or Wayne, guys.)

Highpoint ARC feature article on DXCC for the rich, was a reprint from Jim Clymer, WS6X, via ARNS, which I had missed somewhere. The club will also support the Boy Scout Jamboree in April at the Ashboro Zoo John Matlock, KE4IAM; Fred Redmon, N4GGD; and Roy Smith, N4BYU, are looking for help.

The club meeting place has been changed to the Golden Corral, Hartley Drive, Oak Hollow Mall, (still on the first Thursday, I suppose), according to Editor Mark McMahan,

Newsline Broadcast change

Pamlico Sounds, from the pen of Bob Richardson, KR4TW, also reports regularly on member activities and meeting plans. Charlie Martin, KD4NUJ, reported a change from the WA4TEP repeater to the Trenton repeater for his weekly Newsline broadcast. Monday nights at 7:30 on 145.210 is the new time and location.

The club meeting has also been changed back to the Mother of Mercy School, after a try at Ware's Chapel. I assume the group is touching all religious bases, in an attempt to avoid storm problems or something. Bob's choice of typefaces caused me to laugh at his President's Gavel column. It looked like he was reminding members of the DownCast Hamfest at Kinston... the 'e' was what printer's used to call 'broken type'.

This sums up this quarterly article, but I must tell a story on myself.. I missed the last edition of the SERA Journal in my mailbox when I got back from a few weeks away, so I called to see if any ice storms had delayed my issue. Imagine my embarrassment when I found my dues hadn't been paid! So a reminder to all readers...check the address label and keep supporting the SERA!

Keep sending those newsletters, and information to gfegely@coastalnet.com.

tales from the happy hamette

-by CINDY ROGERS, KR4LS - E-Mail: n4fhm@coastalnet.com
545 WATERBURY DRIVE, FAYETTEVILLE, NC 28311

Dear Happy Hamette,

(My wife won't set a place for the Icom at the table...)

Those of you with a sense (well, maybe not a lot of sense) of time and place will recall that it has now been over 2 years that I have been writing the Happy Hamette columns. It is now past time to answer all those cards, letters and e-mail on your silliest technical questions and most private family problems.

Dear Happy Hamette,

My husband, Bud, just loves his ole radio more than me! He talks and talks on that thing from morning to night. I think he'd sleep with the little varmint if he could get it in the bed without pokin' the mud outta, Martha, his coon dog. Waaah! What does it have that I don't? I don't light up or nuthin' like it does. He claims I'm still prettier than his truck but not as good as sweet as his dog. Waaah ! I think he just says that so I will fry his chicken every night. I watch him get lit right regular with his radio. What a pair. When he lights up, sister, I jus' turn off. He doesn't love me. Waaaah! I 'd like to take that 2-motor thing-a-ma-bob and whup it upside Bud's head. But, Happy Hamette, if I did that, then I wouldn't have my Buddy no more. What can I do? Waaah! Signed, Litless & Loveless in Fayetteville

Dear Litless & Loveless,

Honey, if he gets lit with that radio, then you got to get lit, too. No, chile, I don't mean getting into his moonshine. You light up the radio, too! Get one of those Codeless Tech books and read, read, read. Don't let the radio be your enemy, Hon. You become its friend. When you pass the Technician test, then you can get your own radio and light it up, too. Sug, if you can't beat 'em, get on the radio and join em. Then, he will shut up and listen.

Dear HAMETTE,

Can I use the autopatch to call my girlfirend? How long can I use the repeater at a time? See, now, I hate to use that 440 machine so long so I wondered if I should use the autopatch instead. My buddies and I like the 440 so much that we are on it a few hours at night. 73rds, KD4DUMb and friend.

Dear Dumb and Dumber,

Yes, you can use the autopatch (if your licence permits). But, it is meant for brief calls if you are not near a (pay) phone and it is necessary - does not have to be an emergency. But, it ain't for asking if you should stop at the mailbox if you are 200 feet from your house either. No repeater should be tied up by any one or any one group for any length of time. Your Happy HAMETTE has heard some "older" HAMs hog the 440 and other machines lately. That makes for bad feelings all around. Not polite either. Not to mention it is not nice.

And, sometimes, I get a letter or a phone call, saying something like this...

Dear Mrs.Hamette,

My husband spends all our extra money on all kinds of things for his radios and computer. He won't hardly talk to me any more. How can I get him to not spend so much money on all this? We don't go out to the movies or even McDonald's anymore. He just stays home on the radio and

Tri-County area (SC) conducts Disaster Drill

-by Mary K. Favaro, AE4BX
Charleston County Emergency Co-coordinator

The disaster drill, a simulated severe earthquake which totally destroyed all communication except that provided by Amateur radio, was every successful in the Tri-County area of South Carolina. We had 40 operators on VHF for the exercise and many were dispatched to requested locations.

The drill was directed by Gerald Hensley, K8AFP, the State ARRL Emergency Coordinator, via HF communications. The exercise was brought up promptly at 0930 and ran for about 3 hours. The nature of the drill was described as a severe earthquake.

There was a call for all the counties in South Carolina to check in, and assignments were given to notify the various county emergency coordinators and Red Cross officials and to set up a VHF net. Telephone numbers were given for the presumed locations of the various county EOC officials. They were notified by the one-call-allowed to each operator, after which all communications were presumed obliterated. The Charleston County EOC was located by mobile operator when his location was determined.

Paul, N4WCT, was sent to the Weather Bureau, and though there was no weather-alert bulletin to be disseminated in this disaster, we are all aware that weather emergencies are high on our list of potential disasters in the low county. We had an operator go to a local radio station, WPAL, which would have been our link to the general public if necessary. WPAL owners have expressed their willingness to cooperate with us for emergency communications. We hope to link up with them in the future as well.

Two operators, Frank, KC4TZ and Kraig, AS4SD, had independently constructed a detailed map of the tri-county area which located all shelters. They were responsible for noting the locations of hams who checked in and assigning them to shelters or other locations. We found that the shelter traffic and directions to the shelters became too cumbersome on the linked repeaters so another repeater was added. The shelter communication then proceeded in a more efficient manner.

An additional local exercise was introduced by the Berkeley County EOC, Wes Blanchard, WD4AJT. He stated that his county needed mobile operators at 6 additional sites: the Amoco Chemical in Cainhoy, at Bayer Chemical in Bushy Park, at Santee Cooper, at Cummins Engine in Moncks Corner, at the EOC office at St. Stephens, and the EOC building at Moncks Corner. Amateurs were not physically dispatched to these sites this time due to the respective distances, but a point was made that these locations would need coverage and communications ability in a disaster.

We were particularly pleased with the hospital communication exercise. We have gone from no emergency hospital stations a mere six months ago, to six permanent hospital stations.

We had an additional mobile operator, Dan KM4GT, who proceeded to East Cooper Hospital and transmitted mobile for the hospital exercise. Doc W4MUR was in charge of the hospital exercise from VAH. Other hospital station operators: Michael N4XDN at Roper, Roz K4ETV and Ken KE4OTB at Roper North, Gordon KF4ETT at Roper Berkeley, Glen WB4UIV at Charleston Mem., and Bryce K4LXF and Mike WA4HPV at the Medical Univ.

Although it is important for members of the ham community at large to be familiar with and able to operate these vital hospital stations, we obviously need more hospital personnel trained. The hospital network will not be brought up efficiently, nor maintained for the duration of a disaster without in-hospital personnel available. A new procedure was instituted for the hospitals with this exercise. Only one call was made to the main switchboard at Roper Hospital to alert the hospital network. A lot during the exercise, we found several areas where improvement is needed. All in all, we are becoming an effective group of emergency communicators. Thanks to all who participated.

A voice on the one-nine

Continued from Page 11

delivered the material goods to stranded motorists during that time.

During the weekend of the blizzard, an associate editor of the Charlotte (NC) Observer, Tom Bradbury, NU$G, began to monitor the activity on the Mt. Mitchell repeater. He had operated CW for many years on the HF bands, but he hadn't paid much attention to VHF traffic. On this occasion he happened to have bought a 2-meter handheld for his daughter who was studying to get her Amateur license. What he heard was "weary, gravelly, but ever-patient voice" of Willi, acting as informal net control during the storm. That prompted him to get in touch with her a few days later to get information for an article for the Observer Newspaper. She replied that the story should be about Ham radio. He assured her that, not just she, but the work of Amateur radio would be the central point of the editorial.

One exchange of information that Tom Bradbury may have monitored on that Saturday night, March 15th, involved truck driver Mike Myer, KD4TMA, who was making his way East along I-40 from Nashville in the storm, trying to get to his home in Greensboro (NC). Mike heard John Newton, K4VCQ, of Montreat report that a bus loaded with an athletic team from Montreat College had not returned when expected. The bus had apparently had trouble but nobody knew where it was. Soon thereafter Mike came on his radio to say that the bus was at Exit 44 with a flat tire. Help was summoned by phone, and the team got home.

Mike had to spend the night in his truck at the Black Mountain exit because the steep stretch of I-40 at Old Fort Mountain had been closed.

Willi gets help from other Hams and friends whether she is working radio or planning picnics. Not the least of these helpers is husband Maurice, whose call suffix YWN can be remembered by the phrase, "Yes, Willi, Now." He has also been kidded about whether he is ever allowed to sit in Willi's big comfortable chair by the radios.

During the blizzard, Maurice dutifully went out into the night to remove a limb from a power line that seemed on the verge of breaking. Then on Wednesday morning, the 19th, Willi made sausage biscuits for the truckers who had been stranded on the ramp of I-40 in the vicinity of their home. She sent Maurice trudging a half mile through drifts to deliver these biscuits. In an hour he came back, the bag of food still unopened. The road had been cleared and the truckers were gone.

Another prominent session was held this year during the "blizzard of '96". You can rest assured that Willi was on duty helping out in her own way.

But . . . that's another story.

(Editor's Note: A short note from Willi, said: "The next Willi-nic will be June 1st. Ya'll Come . . . Willi.)

Barbara Marsh, KB8GGG To fill in as West Virginia Correspondant

We received word at press time that Barbara A. Marsh, KB8GGG of Shady Spring, WV will accept the job temporarily filling the vacancy of West Virginia Journal Correspondent. Our long-time WV news editor, Ted Wolfe, WD4KHL has been ill for the past few months, and does not know when he will be able to return to writing.

Barbara said she was looking forward to the new endeavor. She has been licensed since 1989, and is the wife of Dale, N8MRD and mother of Kevin, N8KEE.

She asks that WV hams send her information, news, and stories and she will write them up for the Journal. Write her at: 126 Up Left Fork Road, Shady Spring, WV 25918-9802. You may call her between 3:00 PM and midnight daily at (304) 763-3559.

Why Should anyone Join SERA and Get the Repeater Journal?

Because - the SERA Repeater Journal has:

- ✔ Two updated 8-state repeater indexes (by frequency and by-city, by-state)
- ✔ The most complete hamfest calendar published anywhere - over 150 listings!
- ✔ VE/VEC examination schedules
- ✔ Updated 8-State Club Meeting Calendar
- ✔ Hamfest advertising with details
- ✔ Local/Area dealer advertising
- ✔ National manufacturer advertising
- ✔ Stories about hams and repeaters
- ✔ A multitude of feature articles
- ✔ Helpful hints on VHF/UHF operation
- ✔ Help for the new ham articles
- ✔ Individual state news coverage
- ✔ Digital - and much, much more!!

Join hundreds of your ham friends who support the SouthEastern Repeater, Association, Inc. (SERA), the local Non-Profit Frequency Coordinating organization - made up of repeater owners and repeater users. Along with your membership you get free, the award winning *Repeater Journal* every quarter - February, May, August and November. SERA has worked hard for 25 years to keep our VHF/UHF bands working - your support of this great organization will enable us to continue this work.

JOIN SERA AND GET THE JOURNAL!

Fill out the application and mail with personal check to:

SERA MEMBERSHIP
P.O. BOX 215

WANTED: Virginia News Correspondent for Repeater Journal

-By Don Williams, WA4K
Vice President, SERA
Vice Director, Virginia District

The Repeater Journal is probably the best-produced, most widely circulated regional magazine in the nation. It is comprehensive in its coverage of activity above 29 MHz and about repeaters. Information is provided about hamfests, VE exams, nets, dealers, and many other subjects.

Many states in the region covered by SERA have their own reporters (correspondents) for area news which is published in the magazine.

This is a call for someone to step forward offering to compile news coverage every quarter on *Virginia* happenings, such as new repeaters, club meetings, special events, awards, exams, and other actions of clubs in our region.

The quarterly report could be compiled by two more people who are familiar with the several regions of the state. You could choose among yourselves which individual would collate the reports and send it in to Wayne Williams, K4MOB, editor of The Repeater Journal. Wayne's addresses are listed at the front of the Repeater Journal.

Ask your friends to see if anyone is interested and let me know. Most larger clubs have newsletters which are an excellent chronicle of goings on in Virginia. Such clubs exist in Roanoke, Lynchburg, Richmond, Virginia Beach, and in other larger metropolitan areas of the state, and certainly there are hams out there who would have the resources to produce a report each issue.

The Repeater Journal now accepts news via e-mail and diskettes. As a matter of fact, Wayne prefers digitally-produced articles now, because it saves hours of production time. But if you don't have a computer, we still accept hard copy.

If you are interested in reporting for Virginia, please contact:

Don Williams, WA4K, at the address in the front of this magazine. E-mail, fax, telephone, and USPS mail are all accepted.

(Editor's comment:) We are looking for a "marriage" not a "romance." The person named in the Journal as Virginia corrspondent should be one who is dedicated, wants to contribute to amateur radio reporting, publicize his "home" state and will always be on-time, and never miss an issue. Good communications with the editor and available for comment are strong points needed. The pay is "poor" but the rewards are great!

KEEP UP WITH THE LATEST REPEATER LISTINGS - ONLY IN THE REPEATER JOURNAL!

Pre-Registration Tickets Will Already Be In The Barrel.
Note: No member of the Shelby Amateur Radio Club or immediate family is eligible to win any awards.

the happy hamette Continues

Continued from Page 40

talks, talks, talks. I don't like all that noise all day long. The more I hear that radio, the more I just hate it. We both work but don't have any money. What can I do? Signed, Depressed, Mad and Fed Up with You People.

Dear Depressed, Mad and Fed Up with My People,

HAM radio is NOT for everyone. If it were, it would be a mess. The best thing to do is to just leave him alone with it. Don't ignore him, ignore the radio. Two wrongs don't make a right, as they say. Enjoy him when he does pay attention to you. Develop an interest you have or get involved with something else while he is on his radio. Do NOT demand that he put it aside for you. Do NOT attack his friends or his hobby. DO try to get him to talk calmly about the money that he is spending if it is taking away food, clothes, and housing money. Save some money on your own, even if it is nickels and dimes. Then, YOU ask him out on a date once a month - ask him out to a favorite restaurant for you two to spend some time together. Be a good listener. Your marriage can thrive on different interests and ideas as long as both are mutually supportive and respectful of each other. And, maybe, he will read this!

My Dear Happy Hamette;

I have the most dreadful problem, darling. I got a new Kenwood TS-50 for my den. But, sweetie darling, it doesn't match anything! And, sweetie, I don't have an amplifier to go with the radio. My signature color is peach. I shall have WQ8H, N4MM and AB4W coming over for a little soir. I don't know what to do, my dear. My antennas are going to wilt and my microphone is just gotten squawky and shrill. It is just all coming apart. Anyway, darling, what color scheme does one use with a black radio with a yellow LCD? My tower is silver. I have no ornamentation. If KJ4XK or W4NKL sees this, I am just going to expire. Ex-pire, I tell you. You've GOT to help me! Kiss-kiss and Thirty-threes, In a Decorator's Dilemma!

Dear Dilemma,

There, there, dear. I suggest a tie-in between the radio and your least featured color with a color that blends for the party. To illustrate, the yellow in the LCD can blend with a vase of flowers or a pillow that has some ivory or palest blush. Have touches of new green. The basic black in the radio goes with anything. But, you want to feature function over color. And on the outside, you might consider a rock garden with azaleas around the base of the tower.. No rose or holly bushes to stick in your favorite antenna climber's bottom, now. On the tower, you could string little Chinese lanterns for uneffect. Forget the amplifier, honey. You don't need it. Be a NATURAL woman. Do QRP; it's soo in style with the new radios. Those linear amplifiers are so loud and so tacky. Remember, for HAMs you have to emphasize comfort and food. Then, you'll have an Absolutely Fabulous party, sweetie-darling!

You are welcome to ask me about your most embarrassing personal and technical problems by e-mail at n4fhm@coastalnet.com or letter. I'll answer all queries confidentially except where the fish are biting on 10M. Have to draw the line somewhere.

Drafting Committee releases Revised NFCC Documents

■ SERA Board sends stamp of Approval

The SERA Board cast their votes favorably for the newly proposed National Frequency Coordinator's Conference (NFCC) Constitution, Bylaws, and Memorandum of Agreement. The final draft of the documents, which proposed formation of a National organization for frequency coordinators was completed after the nation's coordinators sent changes to the drafting committee to be incorporated. It now came up for final approval.

The NFCC as reported in the February Journal is to be a representative organiztion of all coordinators, with a goal of setting up a single point of contact to the FCC and official recognition by the Commission of the coordinating efforts around the nation.

Although all indications point to the national approval of the documents, the drafting committee will wait until a meeting at Dayton to announce results to the general public and press.

The SERA Board said that the documents in their present form, if implemented, could launch a workable NFCC organization. They felt our organization (SERA) could and would support something like this.

It's Almost Unbelievable!!

A 50-Watt 2-Meter Mobile for under $300?

Yes! The Alinco DR-150T - $299,00

Next Day Licenses! Here!

Continued from Page 3

ted by the FCC since the program was developed in 1984.

The nation's two largest VECs (W5YI and ARRL) currently administer more than 85% of exams given. Each has a large number of volunteer examiners, a permanent paid staff for administration and gives exams over a wide geographic area.

Under FCC regulations, the administering VEs have 10 days to forward to the VEC and the VEC in turn has 10 days to process the information and forward upgrades and new license information to the FCC. Typically, a VE team will forward the exam session information to the VEC by Priority Mail or an overnight delivery service. The information is processed by the VEC and then transmitted electronically to the FCC, and VECs keep in close contact with the FCC concerning amateur radio examination processing.

And here's where several of the smaller VECs have a time advantage. Because they typically conduct exam sessions near the VEC "headquarters," the time needed to get the information from the VE team to the VEC is less (in many cases, the same day) and the time to process the information at the VEC is low because of the relatively small number of exams administered. Additionally, because the smaller VECs do not have paid staffs, they typically process information on the weekends and at night rather than during regular "business hours." One or two day turnaround for new licenses is common at these VECs.

There are currently three VECs located in the Southeast. TEARC/VEC is located in High Point, NC,

WCARS/VEC is headquartered in Knoxville, TN, and CAVEC is located in Huntsville, AL. All three are active in testing within the region. Several other VECs headquartered outside the region are also active in administering exams within the Southeast.

Amateur radio examinations are routinely available at major hamfests and many VE teams test on a fixed, routine schedule. Additionally, many VECs offer specially scheduled exams upon request for persons with disabilities or special circumstances.
